

AURA MOBILE BT™

Professional Conference Calls from your Cell Phone or PC

Sound professional from the hotel

*... it's the first device I've used in a while that has changed my lifestyle: I'm now accustomed to calling home whilst shaving, talking to my sister abroad while cleaning my desk, and calling to my girlfriend what she'd like for dinner even as I preemptively pour pasta into a pot....
from a Fast Company review*

Take important calls while in traffic

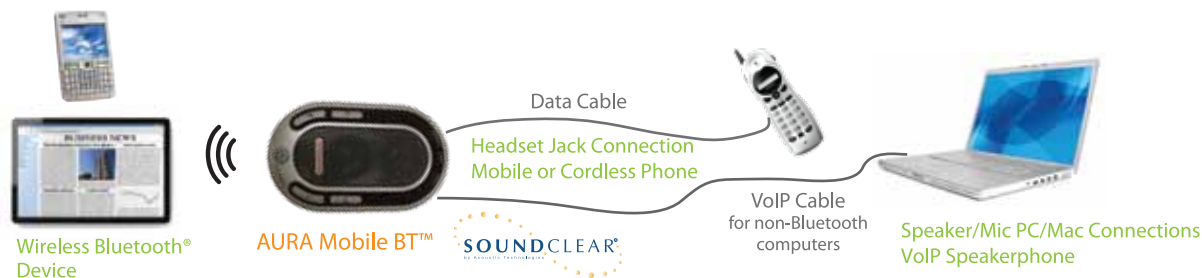

Free both hands for driving

Even VoIP calls will sound professional

- Unsurpassed echo cancellation and noise reduction using state-of-the-art DSP
- Clear and natural simultaneous two way communications (full duplex)
- 3 watt amplifier and dual speakers generate a whopping 95 dB of sound
- Charge anywhere with home or automotive charger
- Versatile integrated clip attaches to car visor or closes flat for desktop use
- Simple setup; Standard Bluetooth® or direct cables (included); VoIP with PC or Mac with no software needed!

AURA MOBILE BT™

Conference on the go!

The Aura Mobile BT™ uses Bluetooth® technology to turn your smart phone, tablet, cordless phone or computer into a portable, high quality, digital conference phone. Small enough to fit in a shirt pocket, now you can conference on the go. Use it at home, in your car, your hotel room, at your client's office, the beach, or anywhere your day takes you!

The Aura Mobile BT™ with Bluetooth® technology is the ultimate option for hands free communication on your mobile phone. Much more convenient than having to put on a headset to make or take a call. The Aura Mobile BT™ is compatible with Bluetooth® mobile phones, or any non-Bluetooth® mobile or cordless phone that has a headset jack. It will even connect with your PC or Mac for VoIP (Voice over IP technology).

The Aura Mobile BT™ is full duplex for simultaneous two-way communication. Echo and noise cancellation, provided by the patented SoundClear™ Digital Signal Processing (DSP) chip, allows you to make clear calls from the noisiest of environments.
